Your Relative Strengths and Weaknesses

The boxes below indicate areas of lower or higher performance in each content area within the Step 1 examination relative to examinees whose overall performance is a low-pass on Step 1 (above but near the minimum passing score). A box in the "Higher" column indicates you performed statistically higher in that content area than those with a low-pass. A box in the "Same" column indicates that you performed similarly in that content area to those with a low-pass. A box in the "Lower" column indicates you performed statistically lower in that content area than those with a low-pass. The percentage range of items from each content area on the Step 1 examination is indicated below.

This information can be used to identify areas of strength and weakness to guide future study. Because the exam is highly integrative, USMLE recommends reviewing all content areas if retaking the test.

Performance by Physician Task Relative to a Low-Pass

	(% Items Per Test)	Lower	Same	Higher
MK: Applying Foundational Science Concepts	(60 - 70%)			
PC: Diagnosis	(20 - 25%)			
Communication & Interpersonal Skills	(6 - 9%)			
PBLI: Evidence-Based Medicine	(4 - 6%)			

Abbreviations: MK, Medical Knowledge; PC, Patient Care; PBLI, Practice-based Learning and Improvement.
